

Be safe in the sun

&

Enjoy your tennis this summer!

With the frequent bouts of extreme weather this summer, we want to ensure that all our members at Estcots Tennis Club stay safe on court!

- Try to avoid playing during the hottest parts of the day (especially important for **young children and our older members**) and follow sensible precautions against the sun.
- For further information, please see the LTA Guidance attached.
- If temperatures reach a point where the committee considers it unsafe for members or for the playing surface, the courts will be closed and members will be notified.
